

Die Free – Fireflight

Captivated by the kingdom of excess
Indoctrinated by religion of S.E.X.
Mesmerized by illusions of grandeur
Supersizing my every desire

Wake me, shake me, from this high
Now I see the fantasy is eating me alive

I won't let you hypnotize me
Take back your American daydream
I won't let you hypnotize me
I don't need anything that you're selling
You can't buy me
You can take my life but I'll die free

I live in the moment while I shatter the future
I am the trigger, always blaming the shooter

Wake me, shake me from this high
Now I see the fantasy is eating me alive

I won't let you hypnotize me
Take back your American daydream
I won't let you hypnotize me
I don't need anything that you're selling
You can't buy me
You can take my life but I'll die free

I'm breaking out

Take back your American daydream
Take back your American daydream

I won't let you hypnotize me
Take back your American daydream
I won't let you hypnotize me
I don't need anything that you're selling

I won't let you hypnotize me
Take back your American daydream
I won't let you hypnotize me
I don't need anything that you're selling
You can't buy me
You can take my life but I'll die free

I'm breaking out

I'm breaking out, I won't buy what you sell

I'll die free
